Specifications

Force: 40,000 psi
Table: 18 3/8" x 16"

Material Height: 2" - 8.75"
Weight: 145 lbs.

THE KRACKER

Block and Paver Splitter

Competitive Advantages The Kracker Block and Paver Splitter	Competition
Can split for the widest range of material	Can only split blocks less than 18" in length
Hydraulic foot operation saves your back and hands from injury (allowing easier use for women and smaller people)	Breaking lever require great strength to split
Large table letting you split those big blocks	Tables are so small most of block hangs off machine
Easy pinned height adjustment (set once to correct height)	Screw adjustment requiring lengthy setup and constant adjustment
Hardened steel blades-simply sharpened	Need expensive replacement blades after extended usage
Easily move around rough jobsites (Wide 24" wheel base)	Small wheels and top heavy design allow machine to tip over easily
Unsurpassed 2 year warranty	1 year or less
